NURHASBAZILAH BINTI RUSLI

Thesis submitted in fulfillment of the requirements  
for the award of the  
Bachelor Degree in Civil Engineering

Faculty of Civil Engineering and Earth Resources  
UNIVERSITI MALAYSIA PAHANG

JUNE 2017

## **ACKNOWLEDGEMENTS**

First and foremost, all of the praise are for the Almighty, Allah S.W.T. who bestowed me with the ability to complete the thesis. I would like to express my gratitude and appreciation to all those who gave me the possibility to complete this report. And a special thanks to our final year project coordinator, Dr. Nur Farhayu binti Ariffin, who give me a guidance and help to complete my project, and also to complete this writing report.

Special thanks to my team mate, Nur Amalina, Fathin Nadhirah and Nur Asyikin, who also has help me to do this project and give an information related to this project. Also, a moral support from my relatives, family and friends.

Last but not least, I would like to thanks to all questionnaire respondent that have spent their time to answering those questions. I also would like to appreciate the guidance given by other supervisor as well as the panels especially in our project presentation that has improved our project by their tips and comments.
